COMPANY DIRECTORY

Geosynthetics magazine arranged the Company Directory alphabetically; it contains listings for those companies that submitted information prior to the deadline.

Companies listed in bold are advertisers in this issue.

✦ GMA = Geosynthetic Materials Association member
□ = IFAI member
The Co-Founder and current Chairman of Hyperloop Transportation Technologies (HTT), Bibop Gresta leads a team of 800 professionals in 40 countries across six continents. HTT was the first company to begin development of the Hyperloop™ and is the largest company ever built upon a collaborative business ecosystem. HTT, under Gresta’s leadership, has been revolutionizing both mobility and the outdated business models. In 2018 HTT has been declared Technology Pioneer by the World Economic Forum.

In addition to his entrepreneurial successes, he is a world-renowned speaker on issues ranging from ethical entrepreneurship to mobility. Bibop has keynoted events for organizations ranging from the World Economic Forum and the United Nations to TED and MTV.

After 34 years of public service, including 24 years as an elected official, Governor Rendell continues to pursue many of the same issues he was passionate about while serving. His commitment to making America a cleaner, more efficient place and to fostering investment in our nation’s crumbling infrastructure is as strong as it has ever been. Rendell has become a champion for progress in the area of alternative energy, and now serves as a consultant or board member for several green and alternative energy firms, including Own Energy, The Efficiency Network and VNG.co. He has also remained heavily involved in the campaign for government efficiency and strategic cost cutting through his work with entities such as Government Sourcing Solutions and Public Financial Management.

Top 5 Reasons to Attend

- Network with your colleagues from around the world.
- Attend Terzaghi, Peck, and Seed Award Lectures
- Gain essential ethics and geo-business information at sessions provided by GBA.
- Visit exhibitors to find the latest tools, techniques, e-programs, etc.
- Earn Professional Development Hours (PDHs) to maintain your professional licensure while gaining relevant focused knowledge.
- Last but not least, experience Philadelphia. A First World Heritage City, with its iconic 300 years of history amidst a vibrant 21st century culture, as well as picturesque and friendly streets lined with parks, shops, public art, restaurants and museums. Philadelphia is home to four Civil Engineering Historic Landmarks – a perfect landing spot for civil and geotechnical engineers!
Unanswered questions can stop your project in its tracks.

The **GMA Techline** puts you back in the fast lane.

GMA Techline is your resource for technical questions about geosynthetics provided by IFAI’s Geosynthetic Materials Association.

Don’t second guess, get expert advice.

E-mail GMAtechline@ifai.com for fast, free and direct answers to your technical questions.

GMAtechline@ifai.com
